Date: December 22, 2009**TO WHOM IT MAY CONCERN****Compliance of KOSHER and HALAL requirement
Declaration of no objection of all SILLITIN products in generally**

Dear Sirs,

We hereby would like to confirm that SILLITIN is an inorganic material produced by mining, which meets all demands of 'KOSHER' and 'HALAL' because of its mixture. Furthermore we can confirm that during the complete production process of all SILLITIN products no ingredients are used, which would infringe the 'KOSHER' and 'HALAL' requirements.

Yours faithfully

HOFFMANN MINERAL GmbH
Dr. Christian Seeger
Head of Research & Development
